Change Request #: 13-05**

Proposed Change:	At the Condition Screen show the associated DM dollars next to each of the deficient systems.				
Justification:	<p>This will aid management in making better educated project budgeting decisions at the asset "system" level. If sites want to address within a project one of the top five systems shown in FIMS they need to know the dollar amounts associated with each system. For those sites that use CAIS this should be an easy thing to show.</p> <p>Thanks! Steve</p>

Remarks by FAC:	<p>11/28/2012 – The FAC determined there was little value added to include this data in FIMS. In addition, the impact to Non CAIS sites could be significant.</p> <p>The request was withdrawn by Steve Patterson</p>
